
Software Portfolio: Procurement Request System

Introduction

Problem Statement

- A department needs a system to manage procurement requests.

Requirements

- Managers can view job status and assign tickets to procurement staff.
- Track KPI metrics of request resolution.
- Push-based notification to procurement staff for prompt response.
- Procurement requesters must submit complete data required by procurement staff.

Showcase: System Features

Guided Request Form (MS Forms)

Purchase request form (CBmE)

Please use this form to submit your request to the support team (Connie, Joseph, Ros). This form ensures the fastest response from us.

For CENTRES purchase, please contact Cheryl (cheryl.lee@nus.edu.sg) directly. For SHAPES purchase, please contact Joseph (jolieiw@nus.edu.sg) directly.

If you don't have the answer to any question, it's alright. Feel free to indicate what you know or just indicate that you are unsure.

Hi, Guangzhi, Joseph. When you submit this form, the owner will see your name and email address.

* Required

1. Please indicate your name (so that we can contact you for details) *

Enter your answer

2. What's the total budget for your purchase? (SGD) *

Enter your answer

3. Have you found a vendor/supplier? *

☒ Yes

☐ No

Preparing for PO

Remarks

Approval [ending some discussion with DO Buyer.

Data flow (Power Automate)

Job ticket automation

1. Requester submits data and attachment through MS Forms as JSON.
2. Submission time captured.
3. Automated logic to parse attached files from JSON into HTML hyperlink.
4. Automated logic to parse data into Jobs System.
5. Push email notification to procurement staff with auto-populated summary.

Data flow (Power Automate)

Status update automation

The screenshot displays a Power Automate flow with two steps:

- When an item or a file is modified**:
 - Site Address**: CBmE Procurement (LIVE) - <https://nusu.sharepoint.com/sites/CBmEProcurementLIVE>
 - List or Library Name**: Purchase request form (CBmE) LIST
 - Folder**: Select a folder, or leave blank for the whole library
 - [Show advanced options](#)
- Send an email (V2)**:
 - To**: joliew@nus.edu.sg
 - Subject**: Admin x has updated a CBmE purchase request
 - Body**:

A purchase request has been updated by an admin. The latest status:

Requestor name: Title x

Request submitted date: Formatted Form submitted date x

Admin name: Admin x

Admin 1st check-in date: Formatted Admin 1st check-in date x

Status: Status Value x

Remarks: Remarks x
